BREEZY® *ultra*

Breezy® — the tradition of superior clinical benefit integrated with stylish looks continues with the new Breezy Ultra⁴ high-strength, lightweight wheelchair. Compare these features and you will find the Breezy Ultra⁴ sets a higher standard for performance, versatility, and value.

Lighter Weight Aluminum Frame — Every ounce of added weight requires greater energy and strength, not only to propel but also to load in and out of a car. Breezy Ultra⁴, made out of corrosion-resistant aluminum, is one of the lightest wheelchairs in its class.

Quick-Release Wheels Are Standard — An added cost on other comparable wheelchairs, all Breezy Ultra⁴ users will appreciate the ability to remove the wheels with just the push of a button. This makes transferring into vehicles easy by converting the chair into three smaller, lightweight components.

Enhanced User Function and Positioning — The Breezy Ultra⁴'s package of adjustable features and options.

BREEZY Ultra- wheelchair

Premium Features are Standard on Breezy Ultra ⁴

Quick-Release Wheels
Make loading in/out of vehicles easy.

Angle-Adjustable Front Casters
Accommodate angled seating surfaces without moving the caster housings out of square.

Adjustable Axle Positions
Three seat height positions and the ability to add a fixed tilt allow for greater flexibility.

Quick-Adjust Footrests
Adjust height without tools using spring-loaded detent buttons. Heel loops adjust with Velcro[®]

Key Options

Angle-Adjustable Back
Back adjusts from 6° anterior to 24° posterior in 6° increments for better positioning. Height adjusts to 17", 18" or 19".

Tension Adjustable Back
Highly adjustable velcro strap system provides customized postural support.

Height-Adjustable Arms
4" vertical adjustment allows for use of cushions.

Hemi Frame
Allows for a seat height as low as 13.5".
